SUMMARY

Recent Computer Science graduate from Universitas Padjadjaran with experience across UI/UX, product-oriented design, software engineering, data analytics, and computer vision. Experienced in translating user and technical requirements into clear digital experiences and practical solutions, with interests across product, technology, data, and intelligent systems.

EDUCATION

Universitas Padjadjaran

Bachelor of Computer Science

GPA: 3.58/4.00 · Cum Laude

Sumedang, Indonesia

Aug 2022 - Aug 2026

EXPERIENCE

Thing Technology | Internship

UI/UX Designer

Bekasi, Indonesia

Nov 2025 - Mar 2026

- Designed mobile product experiences for **Dewa Motor**, covering service appointments, multi-vehicle management, membership, outlet information, service history, and product discovery.
- Designed web experiences for **Dispora DKI Jakarta**, including an interactive personality-based quiz that connects users with relevant youth and sports programs.
- Translated product requirements and user flows into **wireframes, high-fidelity interfaces, and interactive prototypes**.

Universitas Padjadjaran | Freelance

Software Engineering Teaching Assistant

Sumedang, Indonesia

Aug 2025 - Dec 2025

- Assisted in coordinating Software Engineering lectures, preparing instructional materials, and evaluating assignments for **50+ undergraduate students**.
- Guided students in **user research, requirement analysis, and UX documentation** to translate user needs into interface design decisions.
- Supported structured discussions and **one-on-one mentoring** throughout software design activities.

Universitas Padjadjaran | Freelance

UI/UX Designer

Sumedang, Indonesia

Jul 2025 - Aug 2025

- Designed a responsive campus exploration web app for an orientation program involving **9,000+ incoming students**, covering campus discovery, maps, and team-based gamification.
- Built a design system with **35 reusable components and 30 interface frames**, and created interactive prototypes to support usability testing and developer handoff.

TEDxPadjadjaran University | Freelance

UI/UX Designer

Sumedang, Indonesia

Mar 2025 - Jul 2025

- Designed responsive interfaces for a **nine-page event website**, covering event information, ticketing, and partnership experiences.
- Created **wireframes, high-fidelity mockups, and interactive prototypes** in Figma to support collaboration with the development team.

Universitas Padjadjaran | Freelance

Algorithm Analysis Teaching Assistant

Sumedang, Indonesia

Feb 2025 - Jun 2025

- Delivered weekly tutorials for **39 undergraduate students** on algorithm design, complexity analysis, and structured problem solving.
- Evaluated assignments and examinations while providing **one-on-one academic guidance** to support student learning.

PROJECTS

Multi-Camera Person Re-Identification | Undergraduate Thesis

Mar 2026 - Jul 2026

- Developed a multi-camera person re-identification pipeline integrating **YOLO11n, BoT-SORT, and OSNet** to associate local tracks into consistent Global IDs across camera views.
- Built a **Streamlit-based interface and evaluation workflow** for tracking, cross-camera identity association, gallery generation, and performance analysis.

Dewa Motor Mobile Application | Product & UI/UX

Nov 2025 - Jan 2026

- Designed a mobile service experience covering **service booking, multi-vehicle management, membership, outlet information, service history, and product discovery**.
- Translated product requirements into **user flows, high-fidelity interfaces, reusable components, and interactive prototypes**.

Adidas Sales Intelligence & Data Warehouse | Data & Analytics

Apr 2025 - Jun 2025

- Designed and implemented a retail data warehouse using a simulated Adidas sales dataset and the **Kimball methodology** for multidimensional analysis.
- Developed **ETL pipelines with SSIS** and built Power BI dashboards to analyze performance across products, regions, categories, and sales methods.

Eksplorimba AR Game | Product & UI/UX

Mar 2025 - May 2025

- Designed the user experience for an **AR-based educational game** introducing Indonesian endemic flora and fauna through interactive physical markers.
- Conducted user research and created **user flows, storyboards, wireframes, high-fidelity interfaces, and prototypes**, followed by usability testing to refine the learning experience.

LEADERSHIP & ORGANIZATIONAL EXPERIENCE

Himatif FMIPA Unpad Executive Board

Sumedang, Indonesia

Head of External Relations

Jan 2024 - Dec 2024

- Led a **7-member External Relations team**, managing external partnerships and serving as the primary liaison with organizations and external stakeholders.
- Coordinated **comparative study programs and institutional collaborations** to strengthen external relationships and expand organizational networks.

IFest (Informatics Festival) Unpad

Sumedang, Indonesia

Project Supervisor

Apr 2024 - Oct 2024

- Supervised the planning and execution of **Informatics Festival Unpad 2024**, coordinating timelines, deliverables, and budget alongside the Project Officer.
- Supported an event involving **500+ participants, 20+ sponsors, and 12 speakers**, coordinating cross-team execution and external partnerships.

SKILLS & TECHNOLOGIES

- **Product & Design:** Figma, User Research, Requirement Analysis, Wireframing, Prototyping, UI/UX Design
- **Data & AI:** Python, SQL, PostgreSQL, Power BI, PyTorch, OpenCV, Data Analysis, Data Visualization, Deep Learning
- **Development & Tools:** Git, GitHub, Streamlit, React, Next.js, Tailwind CSS
- **Languages:** Bahasa Indonesia (Native), English (Intermediate)

CERTIFICATIONS

- **Data Analyst Advance** — ITBOX Academy, 2025
- **Dasar Visualisasi Data** — Dicoding, 2025
- **Dasar Pemrograman Web** — Dicoding, 2024
